

TribeX Museum, a A 501(c)(3) non profit specializing in healing gardens, permaculture design, and community land restoration. Dedicated to helping communities create healing spaces through permaculture, ecological design, food sovereignty, and urban garden development. We support church campuses, community centers, health organizations, and schools who want to transform unused land into healing, educational green spaces.

CORE CAPABILITIES

Healing Garden & Community Garden Design

- School/Church healing gardens
- Reflection gardens
- Meditation/Prayer gardens with medicinal herbs
- Trauma-informed plant design
- Sensory & aroma gardens
- Raised beds / container-based gardens
